

At Willow Park Nursing and Rehabilitation, our specialists provide physical, occupational, and speech therapies to help you return to a normal, independent lifestyle. Our specialized services include anodyne care, IV therapy, and respiratory services including tracheostomy care. For short-term recovery, skilled nursing care, a respite stay, secured dementia care, or hospice services, Willow Park's philosophy has always been to offer the very best to each and every resident.

*Medicare often helps cover the financial obligations of skilled nursing services. We are providers for Medicare, Medicaid, and many private insurance companies.*

available at each location.**

think results

"They encouraged me, but weren't too pushy. They would knock on the door every day and gently persuade me to go to rehab. Without a doubt, I will be back at the center after my next knee replacement."

- Melinda J. / Cleveland, Ohio

### Located throughout Ohio, Embassy Healthcare provides the services that matter to you.

The clinical capabilities at our skilled nursing centers range from respiratory services — including ventilator care at some locations — to specialized, diagnosis-specific programs.

We provide physical, occupational and speech therapy. We've also introduced Embassy Therapy and work with other experienced providers to deliver personalized rehabilitation plans.

And our assisted living centers and adult day care assure a continuum of care for patients and residents.

Embassy Healthcare has been providing quality care since 1998. We focus on outcomes, so our services get results and allow you to go home faster.
