RSVP Requested but not required to Gina Jeschenig at 440-429-3276 or 440-417-1305.

Grandparents Day: September 12

Grandparents are extraordinary people! They have lived many years, and have stories to tell that could expand our horizons. They have seen the world change in many ways. The next time you have a free afternoon ask them about their lives and the things they have learned. Ask if they have any “words of wisdom” for you. You’ll be amazed how much practical life advice comes from grandparents.

Having a relationship with your grandparents can be really fun. Many grandparents can be more relaxed than parents and will often spend more time, energy and money on things that parents would never agree to. Grandparents are usually happy to extend bedtime or allow an extra dessert on special occasion.

Make an effort to go out of your way this Grandparents Day and get to know each other via in-person visit, text message, video chat or social media! But don't forget everyone loves to get mail, so get creative and write a letter or create your very own card craft to brighten their day.

Our facility is now completely open for visitation to all family and friends. You no longer need to schedule an appointment for a visit.

Happy Birthday!

Staff

9/5	Raechel Coxe

9/24	Wendy Huertas STNA • 7 years

Resident Spotlight: Alice S.

Our featured resident this month is Alice S. who is a long-term care resident in our facility who has been with us for almost 7 months. According to Alice, she was born and raised a “Buckeye”. She stated that she was a boring lady but when I sat down to visit with her and began to ask some questions, the adventure began. Alice married her husband 10 days after she turned 18 and was married for 68 years. Her and her husband, Robert raised three children and were then blessed with eight grandchildren and eighteen great grandchildren... and still growing. Sadly, Alice lost her beloved husband, Robert this May and has been facing each day as it comes. During their life together, her and Robert loved to be on their boat and Alice enjoyed swimming. They were always on the go and enjoyed vacationing all over the country. Her in-laws retired to California so they spent a lot of time visiting the West coast. Alice loves all kind of music and her favorite dance partner was always her husband. During their “younger years” they were active members of the Moose club as well as the Masons where she belonged to the Eastern Stars. Alice grew up with seven sisters and one brother. A few of the sisters come in to visit her every couple of weeks and they have such a great time. It’s amazing to watch the love between them and how involved they are with Alice. She has the biggest smile when they are together. I feel they may have had many adventures and stories of when they were younger. When asked about her “favorites” Alice states that all the holidays are her favorite and she likes fall the best. Her favorite food is banana splits! She also stated very clearly that she loves the food here! There are very few items she does not like and is very satisfied with her choices and options. She has been at a couple other places and said that no one can touch the quality of the food here at Madison. Alice has been through her own medical struggles over the past year but she always has a smile on her face and is always happy to accept a snack from Activities Department, especially a root beer float. Alice would not offer any words of wisdom but I feel she is a living example of grace and beauty.

Employee of the Month: Monica Devine, STNA

“Monica is extremely patient and great with the residents on the Dementia Unit. She has learned their behaviors and triggers and easily provides positive re-directing and calming techniques”
– April Hibbard COTA, Therapy Manager

“Monica goes above and beyond for our residents. The residents can tell that you genuinely care about them. You always have a positive attitude. The residents loved movie night on 7/11/21. Thank you for caring about each one of our residents.”
– Cassandra Hlebovy LPN

Gary's Celebration of Success

Physical Therapy Progress Summary: Gary is currently a long-term resident at Madison Healthcare. Prior to his fall, Gary was independent with all mobility including indoor and outdoor, transfers, and bed mobility tasks. After his hip surgery, Gary readmitted to our facility requiring two staff members to assist with all tasks. After actively participating in PT services, Gary is now utilizing a rollator to ambulate throughout the facility including outdoor mobility. Gary completes all transfers independently.

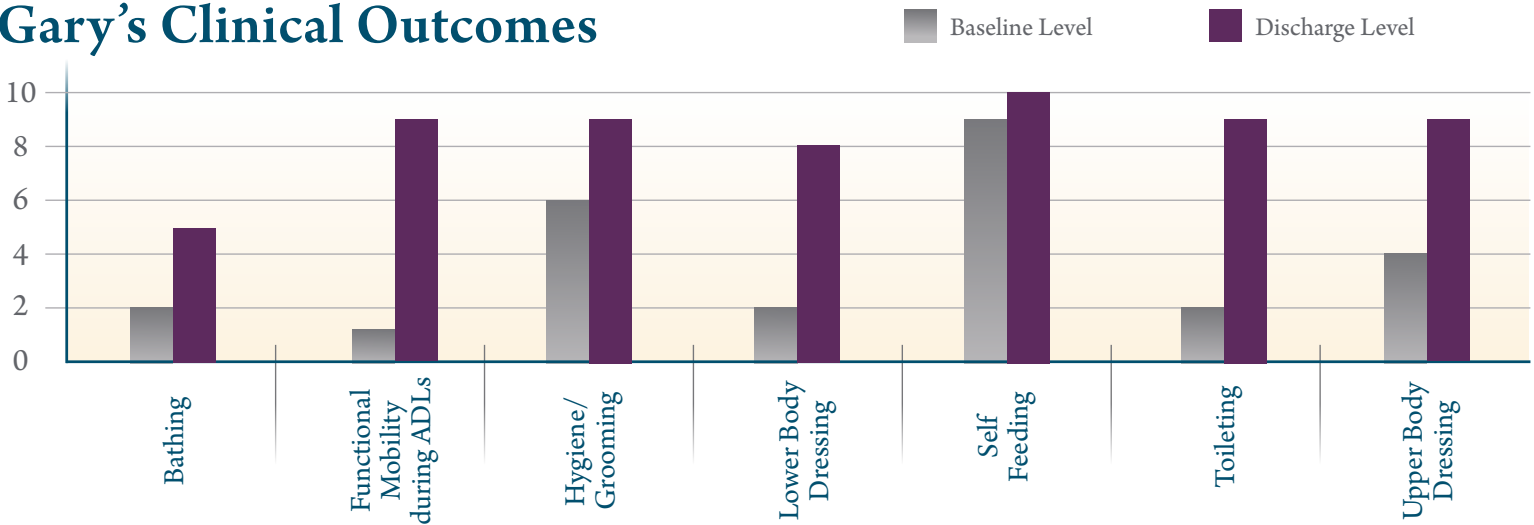

Occupational Therapy Progress Summary: Prior to his fall, Gary completed all self-care tasks independently. Once he re-admitted to Madison Healthcare, he required staff assistance for all dressing, bathing, and toileting needs. After participating in OT interventions, Gary has returned to his baseline independent status while using a rollator.

Congratulations Gary on your rehab success! For more information about our excellent clinical outcomes, services or to schedule a tour, please contact us today.

Functional Score Key

- 10 Independent with/without device
- 9 Supervision and/or cuing to complete task
- 8 Contact guard assist – hands on/guiding
- 6 Minimal assist – 30%-39% assistance provided
- 5 Minimal/Moderate Assist – 40%-49% assistance provided
- 4 Moderate Assist – 50%-59% assistance
- 2 Moderate/Maximal Assist – 70%-79% assistance provided
- 1 Maximal Assist - 80%-89% assistance provided

Gary's Clinical Outcomes

National Healthcare Environmental Services & Housekeeping Week, Sept. 12-18, 2021

Held every year during the second full week of September, Environmental Services Week/International Housekeepers Week is a week dedicated to recognizing the efforts of hard-working custodial staff members.

True stars of any building's operation, custodial staff demonstrate the extraordinary teamwork and management required to care for complex

healthcare environments around our country. Take some time out of your day to celebrate, appreciate and recognize all the professionals working in your healthcare environmental services.
